## CREATING A JUNIOR COMPANY

The Russian legislation concerning the creation of conditions for developing junior companies is changing:

Russia adopted the Strategy for the Development of Mineral Resources by 2035 on December 22, 2018. The plan is to:

- Develop economic mechanisms to ensure accessibility of financial resources for junior companies
- Improve the declarative principle for providing mineral licenses

Executive Order No. 583 on issuing licenses for geological exploration was amended on October 12, 2018:

- license obtaining time periods have been shortened
- In the Far Eastern Federal District, it is possible to get licenses for P1 and P2 forecast resources

Government of Buryatia is ready to help establish a junior company:

- Assistance in obtaining permits and approval documentation
- Assistance in the construction of infrastructural facilities
- Improving the mechanisms for getting land and forest parcels

# CREATION OF THE INDUSTRIAL TECHNOPARK
